

### **NHS Pension Scheme changes**

As you will be aware, from 1 April 2008 there are going to be changes to the NHS Pension Scheme which will affect members planning to retire in the next three years.

If this is something that will affect you then the differences between the terms and conditions of the existing Scheme and the New NHS Pension Scheme will be of great interest to you.

If you would like some additional information highlighting the main issues and differences between the two schemes, please give me a call.
